Data in () for RWD.

Further information on specific fuel consumption and specific CO₂ emissions of new passenger cars is given in "Leitfaden über den Kraftstoffverbrauch und die CO₂-Emissionen neuer Personenkraftwagen" which can be obtained free of charge at all points of sale and from the "DAT Deutsche Automobil Treuhand GmbH, Helmut-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen".

STANDARD EQUIPMENT

2-axle air suspension

Active Air Stream Kidney Grille

Active protection

Airbags

Front, side and head airbags, for driver and passenger.

Air conditioning, automatic with four-zone control (SA 4NB)

The automatic air conditioning with 4-zone control and automatic air volume and temperature regulation can be individually adjusted by the driver, front passenger and outer rear passengers. In addition to a microfilter, fog sensor, Automatic Air Recirculation (AAR), Max Cool button and the functions auxiliary ventilation, residual heat and SYNC, the automatic air conditioning with 4-zone control also features additional vents in the B pillars.

Alarm system

The system monitors all doors, as well as the bonnet and the tailgate. It also features a tilt alarm and a backup power siren.

Ambient lighting

When it is dark outside, Ambient lighting creates a relaxed, cosy lighting atmosphere in the interior. The Welcome Light Carpet feature, part of the Ambient lighting equipment, illuminates the area in front of the car doors when entering and exiting.

Auto Start Stop function

BMW Navigation System Professional

The Navigation system - BMW Professional Multimedia features a sleek design and a superior range of services:

It delivers a simple and easy-to-use navigation system that is seamlessly integrated into the BMW, incl. the iDrive operating concept with iDrive Touch Controller and Touch Display. The system comprises Voice control, radio BMW Professional with DVD drive, as well as 20 GB of memory for audio files.

BMW Online Services

The equipment option BMW Online Services forms the basis for BMW ConnectedDrive functions, which provide the driver with a wide range of information, entertainment and service features while on the road. These include BMW Online, which provides access to current, location-based information such as weather and news, an online search powered by Google™ as well as office functions. BMW Online Services also provides access to the BMW ConnectedDrive Store, in which services and apps can be ordered and extended anytime and anywhere to suit the user's individual requirements.

Carbon Core

Innovative lightweight construction with highly rigid and light carbon elements.

Ceramic finish for controls (4U1)

Exclusive ceramic embellishers for controls such as the gear lever and temperature and volume dials, as well as the border around the iDrive controller, lend a particularly high-quality and luxurious look.

Child seat ISOFIX attachments, rear

Chrome detailing on the kidney grille

STANDARD EQUIPMENT

Climate Comfort windscreen

In direct sunlight, the climate comfort windscreen reduces unpleasant heating of the interior by reflecting infrared rays.

Comfort Access

The Comfort Access, including contactless opening and closing of the bootlid, allows users to open the doors of the car and start the engine without having to use the car key.

Comfort seats, front (456)

A variety of entirely electronic adjustment options for the driver and front passenger mean the greatest possible scope for individual customisation. They allow for seat height, backrest, length and angle adjustment, with separate adjustment options for the upper part of the backrest and the backrest width. On top of that, driver and front passenger can vary their seat depth and thigh support. There is also a height- and depth-variable lumbar support, a smoothly adjustable air chamber system for relieving pressure on the lower spine. Active headrests ensure a particularly safe seating position.

Incl. Massage function, front.

Control Display – 10.25" colour display screen**Display key**

Comprises: LCD colour display incl. touch control panel, Display option of vehicle status information (e.g. fuel gauge and range, vehicle locking etc.), Includes USB charger cable, Wireless charging of the key from front centre armrest.

Door sill finishers ALPINA, illuminated**Drive Performance Control****Emergency Call**

If an accident takes place involving the activation of an airbag or the belt tensioners (for example), the system automatically issues an emergency call. Relevant details such as the exact position of the car, the severity of the accident and the possible risk of injury to occupants are transmitted to the BMW call centre via the car's built-in SIM card, i.e. independent of a private mobile phone. The BMW call centre will inform the nearest rescue coordination centre and provide assistance over the phone until the rescue services arrive. The emergency call can also be triggered manually, in case other road users require help.

Enhanced Bluetooth with wireless charging

A Smartphone holder within the centre console features inductive charging for compatible mobile telephones (using Qi wireless charging format) and connection to the vehicle's external aerial. Includes LED charge level indicator and forgotten mobile phone warning. In addition, two fully functional USB ports are available, each with up to two amperes of charge current for quickly charging mobile devices. The roof aerial ensures that mobile reception is at least as good as it is outside of the vehicle. A second microphone with an additional volume control ensures optimum comprehensibility when using the hands-free function, even from the front passenger seat. Two mobile phones and a mobile audio player can be connected simultaneously via Bluetooth.

STANDARD EQUIPMENT

Exhaust system ALPINA, stainless steel with double-ended tailpipes

Exterior mirrors, automatic anti-dazzle function

First aid kit and warning triangle

Floor mats ALPINA

Front spoiler ALPINA

Gesture Control

With BMW Gesture Control, selected functions can be operated by means of defined hand movements. Using 3D sensors above the front centre console, specifically defined functions of the control display can be controlled using specific hand gestures and can access functions such as accepting or rejecting an incoming telephone call. Volume can be adjusted by circular motions of the index finger. Gesture Control complements the existing control systems such as the iDrive Touch Controller.

Head restraints, front (anti-whiplash) and rear

Head-up Display (610)

The full-colour BMW Head-Up Display projects all information relevant to the journey directly into the driver's field of vision, thereby allowing them to fully concentrate on driving. Data such as speed is displayed, along with navigation tips, Speed Limit Info including no-overtaking indicator, telephone and entertainment lists, and information and warnings from the various driver assistance systems.

Icon Adaptive LED headlights

Incl. BMW Selective Beam (anti-dazzle high-beam assistant) and adaptive cornering lights.

Instrument panel, leather

In addition to the instrument panel, this equipment option also includes the front and rear door panels. The upholstery is full-grain nappa leather of the finest quality, stitched by hand and trimmed with a matching contrast colour with striking double lap seams.

Instruments ALPINA

Multifunctional, with Black Panel Technology.

Interior trim

ALPINA luxury wood with insignia in Silver.

LED fog lights

Loudspeaker system – BMW Advanced

With its 12 speakers and digital amplifier with 205 W of power, the HiFi loudspeaker system provides an outstanding audio experience for all passengers.

Lumbar support

For driver and front passenger.

Paintwork

Metallic paintwork in standard BMW colours.

STANDARD EQUIPMENT

Park Distance Control (PDC), front and rear

Production plaque

Rain sensor

With automatic headlight activation.

Rear apron, integrated with double-ended tailpipes left and right

Rear spoiler ALPINA

Reversing Assist camera (3AG)

The reversing assist camera enhances visibility when reversing at speeds below 9mph, for example when parking. The guidelines and coloured obstacle markings that appear in the Control Display show the driver if the selected parking spot is big enough to accommodate the car – making parking a simpler task.

Seat heating, front and rear

Soft-close doors (323)

The soft-close function pulls the open door shut with minimum effort and no unpleasant noise. Leaning the door against the lock automatically activates the soft-close function, closing and securing it completely.

Sport Automatic Transmission (8-speed) with ALPINA SWITCH-TRONIC

Steering wheel

SWITCH-TRONIC sport leather steering wheel with Multifunction.

Panoramic glass sunroof

Sunblinds

Rear windscreen and rear side windows, electric.

Suspension ALPINA (2VH/2VS)

Incl. Integral Active Steering and Executive Drive Pro.

Through-loading system (465)

Tyre pressure monitoring

Upholstery

Nappa leather.

Wheels: ALPINA CLASSIC 20"

WiFi hotspot

This option enables connection of mobile devices to the internet via the SIM card installed in the vehicle. Up to ten devices can be connected to the WiFi hotspot at any one time.

SEATING

Comfort seats, rear The comfort rear seats have particularly comfortable upholstery and are electrically adjustable in several ways. The fore-and-aft position of each of the individual seats can be adjusted by up to ten centimetres. The backrest angle adjustment ranges from an upright position to a relaxed comfort position with a 45° flat angle. The rear seat comfort headrests are also individually electrically adjustable, and feature a removable Alcantara Comfort cushion. The control units for the two comfort seats are located on the centre armrest in the rear. The memory function allows two individual configurations to be saved and restored at the push of a button.	460	1,848.74

OPTIONAL EQUIPMENT

CODE

LONG-WHEELBASE

Executive Lounge rear console

4F5

2,478.99

The Executive Lounge rear console offers a wealth of functions for the best possible comfort in the back seat of the vehicle. Via BMW Touch Command, a 7" touchscreen tablet, it also allows for convenient operation of the comfort and entertainment functions. On the passenger side in the rear, along with a folding table that can be angled vertically and extended horizontally, the Executive Lounge rear console offers two integrated cupholders, including a storage compartment and another compartment under the armrest. Additionally, the Executive Lounge rear console includes a snap-in charging holder for the BMW Touch Command, and exclusive Floor mats in high pile. The Executive Lounge rear console leaves four seats available in the vehicle. Only in combination with 460 Comfort seats, rear.

Executive Lounge Seating

4F4

1,848.74

Executive Lounge Seating equipment provides the passenger seated behind the front passenger with a high degree of comfort thanks to maximised leg room. The seat and backrest angle can be individually adjusted to create a comfortable relaxation position. An electrically extending footrest on the front passenger backrest increases comfort even further. For even more space in the rear of the vehicle, the front passenger seat can be moved up to 90 mm forward and the headrest folded down, to allow an unobstructed view to the front. Please note: Front passenger seat without massage function, side support adjustment, restricted adjustability of height, lumbar support and backwards lengthwise adjustment. Only in combination with 453 Seat ventilation, front, 454 Seat ventilation, rear, 460 Comfort seats, rear, 6FR Rear-seat entertainment Experience with BMW Touch Command and 4T6 Massage function, rear.

Heat comfort package, front

4HB

285.71

The package includes seat heating for the driver and front passenger as well as heating in the steering wheel, centre console and the side armrests in the doors. The seat heating elements are located in the seat surfaces and backrests. Each seat can be individually set to one of three temperature settings. The side armrest heating can be separately controlled via the iDrive menu or touchscreen. Not in combination with 248 steering wheel heating or 4HC Heat comfort package, front and rear.

OPTIONAL EQUIPMENT

	CODE	LONG-WHEELBASE
Heat comfort package, front and rear The package includes seat heating for the driver, front passenger and the outer rear seats, as well as heating in the steering wheel, centre console, rear centre armrest and the side armrests in the doors. The seat heating elements are located in the seat surfaces and backrests. Each seat can be individually set to one of three temperature settings. The side armrest heating can be separately controlled via the iDrive menu or touchscreen. Only in combination with 460 Comfort seats, rear. Not in combination with 248 steering wheel heating.	4HC	714.29
Massage function, rear Rear-seat passengers can choose between eight different massage functions in the backrest and seat surface in order to stimulate or relax muscles in a targeted manner, leading to less pressure on the spinal discs. These massage programmes can be set to one of three intensity levels. The eight programmes are divided into the categories mobilisation, relaxation and vitalisation. The vitalisation function leads to a noticeable relaxation and invigoration of the body, which is particularly beneficial on long journeys. The rear-seat entertainment monitor displays an animated training programme (Vitality Programme) in synch with the massage actuators. The entire range of programs and functions is controlled via the BMW Touch Command for the rear-seat entertainment system. Only in combination with 460 Comfort seats, rear.	4T6	924.37
Seat ventilation, front	453	621.85
Seat ventilation, rear Only in combination with 453 Seat ventilation, front and 460 Comfort seats, rear.	454	1,000.00

ALPINA RECYCLING

Your BMW ALPINA is part of an all-embracing recycling concept. Recycling demands are already considered early in the development process of a BMW ALPINA. An example of this is in the selection of materials – they are chosen, such that they are environmentally friendly and easily recyclable, using a minimum of resources to do so. Every BMW ALPINA is built so that it is easily and cost-effectively recyclable at the end of its useable life span. All this occurs in close co-operation between BMW and ALPINA. BMW Group have built a European-wide redemption and recycling infrastructure, and require high quality and environmental standards. For return of your automobile for the purposes of recycling, please contact your BMW ALPINA partner. They are ready to help. For further information about recycling firms and redemption locations, please see www.bmw.com

ALPINA

The models illustrated in this brochure may show the specifications of vehicles produced for Germany or another market. In part, the specifications include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets or countries, alterations in models, standard and optional equipment may occur. Not all model versions, for example all-wheel drive, may be available in your market or country. This is a translation of the original German brochure which fulfils the requirements of German law. All technical data in this brochure apply to the German market, additional international units of measure shown in the technical data for the purposes of information only. For precise information on model features, equipment, fuel consumption and CO₂ emissions as they apply to your country please contact your local BMW ALPINA dealer or importer. Subject to change in design, equipment and technical data.
