NEW TEST PROCEDURES (WLTP)

Stated fuel consumption and CO₂ emissions are measured pursuant to EU Regulation 715/2007 in its applicable version. From 1st of September 2018 the Worldwide Harmonized Light Vehicles Test Procedure (WLTP) has replaced the New European Driving Cycle (NEDC). Regardless of the applied test procedure, it is currently still mandatory to state fuel consumption and CO₂ emissions according to NEDC, hence stated values are determined based on the WLTP test procedure and are converted to NEDC for comparison purposes. Depending on your country, vehicle related taxes or other duties may be based on fuel consumption and CO₂ emissions data which differs from that stated here. The provision of additional fuel consumption and CO₂ emissions as determined according to WLTP is currently voluntary until their provision becomes mandatory by law.

Further information on specific fuel consumption and CO₂ emissions of new passenger cars is provided by the ‚Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen‘ which can be obtained free of charge at all points of sale and from the Deutsche Automobil Treuhand GmbH (DAT) or online <https://www.dat.de/co2/>.

BMW ALPINA B7

STANDARD EQUIPMENT

2-axle air suspension

Active Air Stream Kidney Grille

Active protection

Airbags

Front, side and head airbags, for driver and passenger.

Air conditioning, automatic with four-zone control (SA 4NB)

The automatic air conditioning with 4-zone control and automatic air volume and temperature regulation can be individually adjusted by the driver, front passenger and outer rear passengers. In addition to a microfilter, fog sensor, Automatic Air Recirculation (AAR), Max Cool button and the functions auxiliary ventilation, residual heat and SYNC, the automatic air conditioning with 4-zone control also features additional vents in the B pillars.

Alarm system

The system monitors all doors, as well as the bonnet and the tailgate. It also features a tilt alarm and a backup power siren.

Amazon Alexa

Ambient lighting

When it is dark outside, Ambient lighting creates a relaxed, cosy lighting atmosphere in the interior. The Welcome Light Carpet feature, part of the Ambient lighting equipment, illuminates the area in front of the car doors when entering and exiting.

Auto Start Stop function

Carbon Core

Innovative lightweight construction with highly rigid and light carbon elements.

Ceramic finish for controls (4U1)

Exclusive ceramic embellishers for controls such as the gear lever and temperature and volume dials, as well as the border around the iDrive controller, lend a particularly high-quality and luxurious look.

Child seat ISOFIX attachments, rear

Chrome detailing on the kidney grille

Climate Comfort windscreen

In direct sunlight, the climate comfort windscreen reduces unpleasant heating of the interior by reflecting infrared rays.

Comfort Access

The Comfort Access, including contactless opening and closing of the bootlid, allows users to open the doors of the car and start the engine without having to use the car key.

Comfort seats, front (456)

A variety of entirely electronic adjustment options for the driver and front passenger mean the greatest possible scope for individual customisation. They allow for seat height, backrest, length and angle adjustment, with separate adjustment options for the upper part of the backrest and the backrest width. On top of that, driver and front passenger can vary their seat depth and thigh support. There is also a height- and depth-variable lumbar support, a smoothly adjustable air chamber system for relieving pressure on the lower spine. Active headrests ensure a particularly safe seating position.

Incl. Massage function, front.

STANDARD EQUIPMENT

Connected Package Professional

The Connected package Professional provides important services to make your journey easier and more convenient. Remote Services allows you to open and lock doors and locate the vehicle. Remote 3D View allows access to the vehicle environment via the smartphone app and can be retrieved as a 3D representation. Concierge Services provides a telephone service for access to information such as places of interest and hotel recommendations. Real Time Traffic Information can suggest diversions and warn of hazards. Connected Navigation includes destination suggestions via the BMW Connected App and vehicle. Apple CarPlay® Preparation enables wireless usage of your iPhone in the vehicle via Apple CarPlay®. The Connected Teaser Package includes Connected Office and Connected Music. In-Car Experience gives the driver the ability to activate 'Vitalise' and 'Relax' programmes within the vehicle. The Connected Package Professional experiences continuous developments and as a result, functions and offering may change at short notice. All services have a run time of three years with the exception of Apple CarPlay® Preparation which is one year and the Connected Teaser Package which is three months.

Connected Navigation**ConnectedDrive Services**

Includes BMW Connected+, free usage of in-car apps via BMW Online (weather information, news, etc.). Registration required for customisable services.

Display key

Comprises: LCD colour display incl. touch control panel, Display option of vehicle status information (e.g. fuel gauge and range, vehicle locking etc.), Includes USB charger cable, Wireless charging of the key from front centre armrest.

Door sill finishers ALPINA, illuminated**Drive Performance Control****Driving Assistant Professional (5AU)**

Comprises:

- ▶ City Collision Mitigation
- ▶ Forward Collision Warning
- ▶ Lane Departure Warning
- ▶ Lane Change Warning
- ▶ Preventive Pedestrian Protection
- ▶ Speed Limit information
- ▶ Crossing-traffic Warning, rear

Driving Assistant Professional offers comfort and safety during difficult driving situations. Lane departure warning detects lane markings and helps prevent inadvertent departure from the lane. Lane change warning permanently monitors the zones either side of the car and detects other vehicles in its blind spot. Approach control and person warning with city braking function detects vehicles and people ahead and employs a braking intervention system. Crossroads warning with city braking function offers braking assistance with visual/acoustic warnings including active brake intervention. Evasion aid assists in critical approach

STANDARD EQUIPMENT

situations if evasion is still possible. It reacts to both vehicles and pedestrians. Wrong-way warning detects 'no entry' signs on motorways, roundabouts and one-way roads and issues a warning. Steering and lane control assistant assists in keeping to the middle of the lane through corrective steering. Automatic Speed Limit Assist combines Speed Limit Info with Active Cruise Control (ACC) and enables the automatic adoption of detected speed limits in the ACC. Lane keeping assistant with active side collision protection assists in keeping in lane and actively prevents potential side collisions. The system only provides assistance within defined system limits. It remains the responsibility of the driver to react to the actual traffic situation.

Dynamic Stability Control (DSC) incl. Dynamic Traction Control (DTC)

Emergency Call

If an accident takes place involving the activation of an airbag or the belt tensioners (for example), the system automatically issues an emergency call. Relevant details such as the exact position of the car, the severity of the accident and the possible risk of injury to occupants are transmitted to the BMW call centre via the car's built-in SIM card, i.e. independent of a private mobile phone. The BMW call centre will inform the nearest rescue coordination centre and provide assistance over the phone until the rescue services arrive. The emergency call can also be triggered manually, in case other road users require help.

Enhanced Bluetooth with wireless charging

A Smartphone holder within the centre console features inductive charging for compatible mobile telephones (using Qi wireless charging format) and connection to the vehicle's external aerial. Includes LED charge level indicator and forgotten mobile phone warning. In addition, two fully functional USB ports are available, each with up to two amperes of charge current for quickly charging mobile

devices. The roof aerial ensures that mobile reception is at least as good as it is outside of the vehicle. A second microphone with an additional volume control ensures optimum comprehensibility when using the hands-free function, even from the front passenger seat. Two mobile phones and a mobile audio player can be connected simultaneously via Bluetooth.

Exhaust system ALPINA, stainless steel with double-ended tailpipes

Exterior mirrors, automatic anti-dazzle function

First aid kit and warning triangle

Floor mats ALPINA

Front spoiler ALPINA

Gesture Control

With BMW Gesture Control, selected functions can be operated by means of defined hand movements. Using 3D sensors above the front centre console, specifically defined functions of the control display can be controlled using specific hand gestures and can access functions such as accepting or rejecting an incoming telephone call. Volume can be adjusted by circular motions of the index finger. Gesture Control complements the existing control systems such as the iDrive Touch Controller.

Head restraints, front (anti-whiplash) and rear

Head-up Display

The full-colour BMW Head-Up Display projects all information relevant to the journey directly into the driver's field of vision, thereby allowing them

STANDARD EQUIPMENT

to fully concentrate on driving. Data such as speed is displayed, along with navigation tips, Speed Limit Info including no-overtaking indicator, telephone and entertainment lists, and information and warnings from the various driver assistance systems.

Icon Adaptive LED headlights

Incl. BMW Selective Beam (anti-dazzle high-beam assistant) and adaptive cornering lights.

Instrument panel, leather

In addition to the instrument panel, this equipment option also includes the front and rear door panels. The upholstery is full-grain nappa leather of the finest quality, stitched by hand and trimmed with a matching contrast colour with striking double lap seams.

Instruments ALPINA

Multifunctional, with Black Panel Technology.

Intelligent Personal Assistant

Interior trim

ALPINA luxury wood with insignia in Silver.

LED fog lights

Live Cockpit Professional in ALPINA Design

The BMW Live Cockpit Professional includes a fully digital 12.3" instrument display in ALPINA Design, high-resolution 12.3" Control Display and BMW Operating System 7 (ID7) with variable, configurable widgets that display information in real time. The navigation function has an image of the current

course of the road, arrow pointer, map display north-up, heading-up and perspective view, 3D landmarks, Micro City Models, free-text search for addresses and special destinations and destination guidance instructions with auto-zoom function. The personal user account enables unique identification and authentication of the vehicle user with their stored profiles (via key and PIN). All settings related to the respective person are adopted together with the profile. A hard drive-supported system includes 20GB memory. The quadruple tuner has diversity reception, RDS and TMC. Bluetooth/Wifi interface enables wireless connection of mobile terminal devices. There is 4G LTE connectivity using a hard-wired SIM card with 4G network in the vehicle. Intuitive operation can be activated by voice command, direct-selection buttons, iDrive Controller and touch operation on the Control Display or optional gesture control (only with BMW Gesture Control).

Loudspeaker system – harman/kardon surround sound

16 speakers neate a full, consistent sound at every seat. The system's main features are the 460 W digital amplifier with individual adjustable equalizer.

Lumbar support

For driver and front passenger.

Paintwork

Metallic paintwork in standard BMW colours.

Park Distance Control (PDC), front and rear

Parking Assistant

Camera and ultrasound-based assistance system consisting of parking assistant, active PDC, reversing assistant, lateral parking aid and rear view camera.

STANDARD EQUIPMENT

Panoramic glass sunroof

Production plaque

Rain sensor

With automatic headlight activation.

Rear apron, integrated with double-ended tailpipes left and right

Rear spoiler ALPINA

Seat heating, front and rear

Soft-close doors (323)

The soft-close function pulls the open door shut with minimum effort and no unpleasant noise. Leaning the door against the lock automatically activates the soft-close function, closing and securing it completely.

Sport Automatic Transmission (8-speed) with ALPINA SWITCH-TRONIC

Steering wheel

SWITCH-TRONIC sport leather steering wheel with Multifunction.

Steering wheel heating

Sunblinds

Rear windscreen and rear side windows, electric.

Suspension ALPINA (2VH/2VS)

Incl. Integral Active Steering and Executive Drive Pro.

Tyre pressure monitoring

Upholstery

Nappa leather.

Wheels: ALPINA CLASSIC 20"

WiFi hotspot

This option enables connection of mobile devices to the internet via the SIM card installed in the vehicle. Up to ten devices can be connected to the WiFi hotspot at any one time.

SAFETY, TECHNOLOGY AND CHASSIS		
Limited slip differential	209	2,773.11
Night Vision with pedestrian recognition	6UK	2,848.74
<p>Night Vision with pedestrian recognition provides the driver with a range of vision that well exceeds the beam of light from the headlights, making it possible to identify people and large animals from a significant distance at night. Additionally, the Dynamic Marker Light function of the dazzle-free main headlight selectively illuminates them. Incl. Headlight wash.</p>		
Remote Control Parking	5DV	378.15
<p>Only in combination with 5ON Parking Assistant Plus</p>		
Parking Assistant Plus	5DN	428.57
<p>Parking Assistant Plus is a driver assistance system. It comprises Parking assistant which facilitates parking into parallel and lateral parking spaces as well as leaving parking spaces parallel to the road. Reversing Assistant saves the last 50m taken by the driver going forwards in order to follow the path while reversing. Lateral parking aid assists in damage minimisation while manoeuvring using information from Park distance Control. Rear view camera supports the driver when reversing into a parking space by showing the area in the rear of the vehicle in the Control Display. Surround View includes Top View, Panorama View and Remote 3D View. Cameras at the front and rear and in the exterior mirrors provide a 360 degree view around the vehicle including a three-dimensional visualisation. Panorama View, front and rear, makes it more safe to approach junctions and exits. Remote View 3D transfers static images from 3D view to mobile terminal devices via the mobile phone network (only in combination with the Remote Service option). In Surround View, the vehicle and its surroundings can be viewed from any perspective. The system only provides assistance within defined limits. It remains the responsibility of the respective driver to react to the actual traffic.</p>		

OPTIONAL EQUIPMENT	CODE	LONG-WHEELBASE
CLIMATE AND GLASING		
Ambient Air package At the push of a button, the Ambient Air Package fills the interior of the car with a subtle, pleasant fragrance. Eight fragrances, belonging to four themes, are available, all specially composed for the vehicle. Two can be used alternately in the vehicle at a time. The intensity of the fragrance can be set to three levels. The function is shown on the Control Display.	4NM	294.12

LIGHTS

BMW Laserlights	5AZ	1,470.59
With the high-beam on, BMW Laserlights illuminate a range of up to 600 metres - nearly twice as far as that of LED headlights. Includes both LED technology for enhanced light intensity and wide illumination, in addition to Laser technology for even greater intensity when using high-beam at higher speeds. Headlights with BMW Laserlight feature blue design accents, as well as "BMW Laserlight" lettering.			

NAVIGATION / COMMUNICATION / ENTERTAINMENT (some services / options may not be available in your country)

OPTIONAL EQUIPMENT

	CODE	LONG-WHEELBASE
BMW Touch Command The BMW Touch Command is a tablet with 7" display that is integrated into the centre armrest in the rear. It is connected to the car's systems and offers comprehensive operation and setting options. Using the tablet, the rear seats and front passenger seat can be adjusted, for example. Air conditioning, ventilation and seat heating in the rear can be operated, as well as the interior lighting with Ambient lighting, the blinds for the glass sunroof and the roller sunblinds. The entertainment functions can also be controlled. The portable BMW Touch Command can be conveniently charged from the Snap-in adapter.	6U9	411.77
Bowers & Wilkins Diamond surround sound system The Bowers & Wilkins Diamond surround sound system offers outstanding studio-quality sound in the vehicle. 16 speakers with a total output of 1,200 watts provide a mesmerising sound experience. Innovative speaker materials strike the perfect balance between sound quality and vehicle weight. The stainless-steel speaker trim features the exclusive Fibonacci cutout design.	6F1	3,739.50
DAB digital radio The DAB tuner delivers a virtually unlimited array of radio entertainment. Digital radio reception provides a large selection of stations, as well as numerous speciality channels.	654	352.94
Independent rear telephone The separate telephone with cordless handset is located in the rear center armrest and is easily accessible from both rear seats.	6NB	747.90
Rear-seat entertainment Experience with BMW Touch Command	6FR	2,605.04

OPTIONAL EQUIPMENT

CODE

LONG-WHEELBASE

Rear-seat entertainment Experience is operated using BMW Touch Command. It includes two 10" colour displays on the rear side of the front seat backrests. It also includes a Blu-ray player, an HDMI connection for mobile devices, as well as various connections for MP3 players, game consoles, etc. Up to three sets of headphones can be connected via the integrated wireless interface. In combination with the rear massage seats, the Vitality Programme can also be used with the equipment Rear-seat entertainment Experience.

SEATING

Comfort seats, rear

460

..... 1,848.74

The comfort rear seats have particularly comfortable upholstery and are electrically adjustable in several ways. The fore-and-aft position of each of the individual seats can be adjusted by up to ten centimetres. The backrest angle adjustment ranges from an upright position to a relaxed comfort position with a 45° flat angle. The rear seat comfort headrests are also individually electrically adjustable, and feature a removable Alcantara Comfort cushion. The control units for the two comfort seats are located on the centre armrest in the rear. The memory function allows two individual configurations to be saved and restored at the push of a button.

Executive Lounge rear console

4F5

..... 2,478.99

The Executive Lounge rear console offers a wealth of functions for the best possible comfort in the back seat of the vehicle. Via BMW Touch Command, a 7" touchscreen tablet, it also allows for convenient operation of the comfort and entertainment functions. On the passenger side in the rear, along with a folding table that can be angled vertically and extended horizontally, the Executive Lounge rear console offers two integrated cupholders, including a storage compartment and another compartment under the armrest. Additionally, the Executive Lounge rear console includes a snap-in charging holder for the BMW Touch Command, and exclusive Floor mats in high pile. The Executive Lounge rear console leaves four seats available in the vehicle. Only in combination with 460 Comfort seats, rear.

OPTIONAL EQUIPMENT

	CODE	LONG-WHEELBASE
<p>Executive Lounge Seating</p> <p>Executive Lounge Seating equipment provides the passenger seated behind the front passenger with a high degree of comfort thanks to maximised leg room. The seat and backrest angle can be individually adjusted to create a comfortable relaxation position. An electrically extending footrest on the front passenger backrest increases comfort even further.</p> <p>For even more space in the rear of the vehicle, the front passenger seat can be moved up to 90 mm forward and the headrest folded down, to allow an unobstructed view to the front.</p> <p>Please note: Front passenger seat without massage function, side support adjustment, restricted adjustability of height, lumbar support and backwards lengthwise adjustment.</p> <p>Only in combination with 453 Seat ventilation, front, 454 Seat ventilation, rear, 460 Comfort seats, rear, 6FR Rear-seat entertainment Experience with BMW Touch Command and 4T6 Massage function, rear.</p>	4F4	1,428.57
<p>Heat comfort package, front</p> <p>The package includes seat heating for the driver and front passenger as well as heating in the steering wheel, centre console and the side armrests in the doors. The seat heating elements are located in the seat surfaces and backrests. Each seat can be individually set to one of three temperature settings. The side armrest heating can be separately controlled via the iDrive menu or touchscreen.</p> <p>Not in combination with 4HC Heat comfort package, front and rear.</p>	4HB	85.03
<p>Heat comfort package, front and rear</p> <p>The package includes seat heating for the driver, front passenger and the outer rear seats, as well as heating in the steering wheel, centre console, rear centre armrest and the side armrests in the doors. The seat heating elements are located in the seat surfaces and backrests. ALPINA RECYCLING

Your BMW ALPINA is part of an all-embracing recycling concept. Recycling demands are already considered early in the development process of a BMW ALPINA. An example of this is in the selection of materials – they are chosen, such that they are environmentally friendly and easily recyclable, using a minimum of resources to do so. Every BMW ALPINA is built so that it is easily and cost-effectively recyclable at the end of its useable life span. All this occurs in close co-operation between BMW and ALPINA. BMW Group has built a European-wide redemption and recycling infrastructure, and require high quality and environmental standards. For return of your automobile for the purpose of recycling, please contact your BMW ALPINA partner. They are ready to help. For further information about recycling firms and redemption locations, please see www.bmw.com.

This is an international price list for information purposes only, it is not legally binding. Option pricing and standard equipment may vary in your country. Some options may not be available in your country due to technical and/or regulatory reasons. All technical data in this brochure apply to the German market (left-hand drive models, right-hand drive models may differ). Additional international units of measure shown in the technical data are for the purposes of information only. The models illustrated in this brochure may show the specifications of vehicles produced for Germany or another market. In part, the specifications include optional equipment and accessories not fitted as standard. According to the specific requirements of other markets or countries, alterations in models, technical data, standard and optional equipment may occur. Not all model versions may be available in your country. For precise information on model features, equipment, prices, fuel consumption and CO₂ emissions as they apply to your country please contact your local BMW ALPINA dealer or importer. Errors and omissions excepted. Subject to modifications. March 2019.
